Languages

HTML and HTML5
Rate: 9/10 

CSS
Rate: 9/10 

SCSS
Rate: 8/10 

JavaScript
Rate: 9/10 

Rest API (Ajax)
Rate: 7/10 

Libraries

React
Rate: 7/10 

jQuery
Rate: 9/10 

Frameworks:

Node.js
Rate: 3/10 

Bootstrap
Rate: 8/10 

CI/CD:

GIT
Rate: 9/10 

Jenkins
Rate: 5/10 

JIRA
Rate: 8/10 

Sourcetree
Rate: 8/10 

Frameworks we are using Bootstrap. Libraries we use are **React, jQuery**.

Project:

InfoWatch: It is a web based project. It has research data for drugs and medicine from all over the world. It helps our clients for their further development for the same. It also has other information as well.

Features:

- **Centralised portal:** ensuring all of your information sources are accessible from a single location
- **Real-time:** information feeds on the topics most important to you
- **AI-driven search:** across all of your information sources
- **Visual dashboards:** providing clarity to complex data sets

This project has **65+ clients**. We have created projects for them as per their requirement.

My role as a Team Lead:

In 2015 infoDesk gave me a new role to manage the UI Team. .

Development Skills:

- DOM Manipulation
- Problem-Solving

My activities Or task:

- Organising and assign work to team member
- Communicating business goals to team member
- Communicating top management expectation to the team
- If needed I explain task in details to the team member
- **Allocating and managing resources:** I was swift team members as per priorities.
- I was tracking task progress in Jira.
- After reviewing code if needed I was coaching them.
- I always motivating my team members to accomplish their tasks and goals on time.

Experience in UI/UX Design/web design:

Technologies we used:
